Experts in the diagnosis and treatment of upper GI and colorectal conditions

London Digestive Surgery is a team of highly specialised upper gastrointestinal and colorectal surgeons from the UK's top teaching hospitals. They are part of the prestigious London Digestive Centre, part of HCA Healthcare UK, based at 41 Welbeck Street.

Our consultants have a broad range of experience and expertise and can treat conditions from the simple to incredibly complex. They work closely with clinical specialists, surgeons and oncologists within the London Digestive Centre in a multidisciplinary setting to provide an exceptional level of care. With some of the most advanced testing and treatment facilities available, patients can benefit from fast on-site diagnosis and comprehensive tailored care.

Stomach cancers account for **2%** of all new cancer cases in the UK*

Upper gastrointestinal expertise

Our upper gastrointestinal (GI) services are performed by Professor Muntzer Mughal and Mr Borzoueh (Boz) Mohammadi and they specialise in the investigation and management of patients with oesophagogastric conditions, including the full range of benign and malignant conditions:

- Abdominal wall hernia repair and reconstruction (laparoscopic/open)
- Anti-reflux surgery
- Cholecystectomy
- Hiatus hernia repair
- Surgery for achalasia
- Surgery for oesophageal and gastric cancer

"Mr Mohammadi is so suited to his profession. He has clearly gone into medicine for all the right reasons. I cannot speak highly enough of him after he operated on me. I have already recommended him to a dear friend. I know he will look after her well."

Sandra, patient of Mr Borzoueh Mohammadi

"Professor Mughal is truly an incredible surgeon who provides the very, best care and support for his patients before, during and after surgery. I feel very fortunate to have been referred to this amazing professional."

Nadine, patient of Prof Muntzer Mughal

Colorectal expertise

Our colorectal surgeons, Mr Alastair Windsor and Mr Edward Westcott and their team of subspecialists, are experts in the full spectrum of colorectal surgical disorders. Together, they offer patients the highest standard of surgical care with exceptional clinical, diagnostic and technical expertise.

We provide a comprehensive service that includes inpatient and outpatient care for all colorectal conditions, including even the most complex. Conditions we see and treat include:

- Abdominal wall reconstruction
- Colorectal and bowel cancer
- Crohn's disease
- Diverticular disease
- Incisional hernia repair
- Inguinal hernia repair
- Proctology (haemorrhoids, fistula, fissure)
- Faecal incontinence
- Inflammatory bowel disease (IBD)
- Ulcerative colitis

"On meeting Mr Westcott, I felt comfortable to discuss any concerns and issues with him. He is extremely professional, but very approachable, caring and fully understood my needs and concerns."

Patient of Mr Edward Westcott

"Thank you very much again for all your help and support over the last few weeks with my mum's treatment. Please could you also pass on my thanks to Mr Windsor who has been just amazing over the past three weeks, very much appreciated."

Specialised expertise all under one roof

London Digestive Surgery consultants practice at London Digestive Centre, a specialist medical centre where digestive conditions affecting the stomach, intestines, liver and pancreas can be seen and treated. This centre is supported by inpatient services at The Princess Grace Hospital.

We have a whole team of specialists on-hand to work with our consultants to provide the very best level of care. We work closely with thoracic surgeons, oesophageal physiologists and oncologists, meaning patients will receive a comprehensive personalised treatment and management plan, resulting in better patient outcomes.
